POWER ENGINEERING

THE ENGINEERING MAGAZINE OF GENERATION/CONSTRUCTION/RETROFIT/MAINTENANCE

1992 ANNUAL INDEX

POWER ENGINEERING
1250 So. Grove Ave., Ste. 302
Barrington, Il 60010

TITLES

COGENERATION/ WASTE-TO-ENERGY AND NON-UTILITY POWER

C-C plant features high availability, on-line compressor wash (field note) ..... Jan 42
Flexible cogen system follows plant steam demand (field note)..... Feb 63
Industrial power takes new directions ..... Mar 23
Central controls balance district cooling system (field note)..... Mar 46
Diesel combined cycle plant burns compressed natural gas (field note) ..... Jun 56
New cogeneration and other non-utility power plants..... Jul 23
Deaerating condenser boosts combined-cycle plant efficiency..... Jul 33
Cogen system adds to hospital's peak power supply (field note)..... Jul 52
New cogeneration plant to supply needs of a city..... Oct 64
Cogen plant begins coal/gas co-firing to reduce emissions (field note) ..... Dec 55

COOLING TOWERS

New installations overseas demonstrate dry cooling systems..... Sep 49
New backstops can save $300,000 a year in cooling tower O&M (field note) ..... Sep 68

ELECTRICAL SYSTEMS/ EQUIPMENT

Utility saves $230,000 by repairing blown bushing shield (field note) ..... Jan 44
Mobile vacuum systems save transformer service time (field note) ..... Mar 50
First oxide fuel cell sold; research program continues (field note)....Apr 42
Puerto Rico plans battery-based spinning reserve (field note)..... Aug 57

ENVIRONMENTAL CONTROL AND MONITORING

Mixer improves sulfur removal for geothermal plant (field note)..... Jan 43
Process cuts NO_x, SO_2, waste products from high-sulfur coal burning (field note) ..... Jan 46
Permitting and compliance programs for toxic discharges..... Feb 35
Linking fire protection choices with CAA compliance ..... Mar 28
Action builds on 1990 Clean Air Act compliance (Part 1)..... May 21
Redesign overcomes electrode hammer failures..... Jun 34
Action builds on the road to CAA compliance (Part 2) ..... Jun 43
Limestone injection reduces SO_2 by 70% (field note)..... Jun 50
NO_x emissions control demands a range of solutions..... Jul 44
Modular low-NO_x burners simplify retrofit (field note)..... Jul 54
CFB boiler meets pollution standards, cuts operating costs..... Aug 35
Catalyst air heater retrofit reduces NO_x emissions..... Aug 38
1000-ft, 3-flue chimney houses scrubber module (field note) ..... Oct 70
Windbox modeling, burner technology reduce vibration ..... Dec 30
Meeting CAA demands on CEM ..... Dec 46

EXOTIC POWER

New life for old rigs—as geothermal plants (field note) ..... Sep 67
Wind turbine design raises efficiency, lowers costs (field note) ..... Dec 53

FUELS, STORAGE AND ASH HANDLING

New fuel choices change coal handling and storage rules (Part 1) ..... Jan 17
Switching to low-sulfur coal: case histories ..... Jan 22
New fuel choices change coal handling and storage rules (Part 2) ..... Feb 39
On-line coal analyzer helps plant meet EPA standards (field note) ....Feb 57
Switching to western coals demands changes in handling systems..Apr 36
New coal plant will be operated via CRT touchscreens (field note).....Apr 39
Operating changes control scale in wet ash transport system .....May 29
AEP saves $3.3 million with plant waste recycling (field note) .....Jul 52
Availability/reliability of gas supplies are concerns for utilities..... Aug 42
Ohio Edison recycles slag into $800,000 a year (field note)..... Dec 54
FBC fuel feed system satisfies local height restrictions (field note) ..... Dec 55

HYDROELECTRIC POWER

'Pro-environment' hydro plant taps new technologies, equipment (field note) .....Apr 41
RG&E upgrades old hydro plant; automates bevel-gear operators (field note) ..... Jun 54
Special machine rescues penstock flanges (field note)..... Aug 57
Enclosure system cuts heating costs in winter dam rehab (field note) .....Nov 125

Grand Coulee upgrade approach cuts downtime from 300 to 70 days (field note) ..... Nov 125
Hydroelectric dam washout study guides reconstruction ..... Dec 40

INSTRUMENTS, COMPUTERS AND CONTROLS

Borehole camera helps dam inspection (field note)..... Jan 42
Spreadsheet eases heat balance, payback calculations ..... Feb 25
Fiberoptic viewer, grading system help assess tube corrosion (field note) ..... Feb 60
Software analyzes data for vendor guarantees (field note)..... Feb 63
Air heater test takes less time, yields more data (field note)..... May 47
Utility designs its own computerized lab report system (field note)..... May 51
Monitoring/diagnostic systems enhance plant asset management..... Jun 23
Computer program predicts condenser cleanliness ..... Jun 39
Network, software bring real-time data to nuclear plant engineers (field note) ..... Jun 50
MIT links PCs, PLCs to control fusion experiments (field note)..... Jun 53
New control systems will use advanced instrumentation ..... Sep 17
Controls retrofit boosts efficiency of peaking units (field note)..... Sep 66
Extensive computer modeling solves gas burner problems (field note) .. Sep 67
New software directs the fight against boiler tube failure ..... Oct 59
State-of-the-art control room saves utility $4 million/year..... Nov 21
Software aids plant management ..... Nov 25
Scanning/document system cuts costs, saves time, space (field note) ..... Dec 54

MAINTENANCE, PLANT OPERATIONS

Computerized maintenance boosts reliability, trims costs ..... Jan 30
Commercialization of IGCC technology looks promising..... Feb 30
Insulation withstands precipitator vibration, high temperatures (field note) ..... Feb 57
Plant's alliance with paint store eases maintenance project (field note) ..... Feb 58
A vision for reducing boiler tube failures (Part 1)..... Mar 33
Replacing asbestos steam path gaskets ..... Mar 43
Switch to helium unit improves condenser leak detection (field note). Mar 46
Retrofit tightens boiler control, cuts maintenance (field note) ..... Mar 49
Converting ppm to lb/million Btu: an easy method..... Apr 32
Preventive maintenance vital to cogen profitability ..... Apr 34
Two-part flue lining repair provides longer life for brickwork (field note) ..... Apr 42
Simulator reduces cogen plant's start-up and training costs ..... May 37
A vision for reducing boiler tube failures (Part 2)..... May 41
Illinois Power replaces radium with cesium in coal chute gauges (field note) ..... May 49
Elastomer bellows seal saves $36,000 in ash slurry system (field note) ..... May 52
Boiler load allocation upgrades distributed control system ..... Jul 49
FRP lining effectively protects neutralization tank (field note)..... Jul 54
Jack system with central control helps in dragline repair (field note) ... Aug 58
Boiler tube coating increases boiler efficiency 4% (field note) ..... Aug 60
BASIC computer program calculates FGD limestone use ..... Sep 24
TVA commercializes bubbling-bed AFBC technology ..... Sep 26
Test of new cyclone burner shows 85% efficiency, low NO_x (field note) ..... Sep 64
Robots cut maintenance at PSE&G ..... Oct 66
Planning makes boiler cleaning easier ..... Nov 37
Real-time diagnostics improve power plant operations..... Nov 45
Orbital system cuts welding time for boiler repairs (field note)..... Nov 116
New boilers must handle cycling duty, deliver low emissions ..... Dec 21

MANAGEMENT

Fast-track, low-cost construction starts with the owner..... Feb 19
Power generators prepare for new base load plants..... Apr 19
New base load plants..... Apr 27
POWER ENGINEERING's 1992 buyers' guide to power plant equipment..... Jun S-1
POWER ENGINEERING's 1992 buyers' guide to power plant services..... Aug S-1
Instrument Society of America '92 Show Preview ..... Sep 53
POWER-GEN '92: The 5th annual guide to a dynamic industry..... Nov 49
POWER-GEN product showcase ..... Nov 53

NUCLEAR

Framatome improves steam generator replacement process (field note) ..... Jan 39
Protect nuclear plant fasteners from boric acid corrosion ..... Mar 38
Construction begins on advanced design nuclear plant (field note) ..... Mar 50
Robot cuts personnel exposure during SG maintenance (field note) ..... May 47
Independent spent fuel storage commissioned at Fort St. Vrain (field note) ..... May 51
Melter reduces spent nuclear fuel for storage (field note)..... May 52
A new round of steam generator replacements begins ..... Jul 39
Reliability-centered maintenance trims nuclear plant costs (Part 1) .. Aug 23
Japan begins construction of second advanced nuclear plant (field note) ..... Aug 58
Better maintenance, R&D extend steam generator life ..... Oct 29
Reliability-centered maintenance trims nuclear plant costs (Part 2) .. Nov 30
Borescope inspection avoids fuel offload at nuclear plant (field note) ..... Nov 119
Transparent working model demonstrates BWR operation (field note) ..... Nov 120
TVA-designed emergency trucks track radioactive plumes (field note) ..... Nov 122
R&D exchange increases nuclear plant availability ..... Dec 34

PRIME MOVERS AND GENERATORS

Handling changeout turbine rotor/cylinder as a unit cuts on-site assembly (field note)..... Jan 39
'Largest' gas turbine passes test at GE plant (field note) ..... Feb 58
Retractable packings pass inspection ..... Jun 30
Schedule of CT purchases can reduce permitting risks ..... Aug 30
Field repair of turbine saves time, improves quality..... Aug 62
Ice storage system cooling boosts CT efficiency..... Sep 31
First U.S.-manufactured Siemens gas turbine exported to Taiwan (field note) ..... Sep 64
Moving a replacement generator necessitates unusual travel plans (field note) ..... Sep 66
Unique adapter shaft connects exciter to generator (field note) ..... Sep 68
Flexible T-G system handles rapid load changes at paper mill (field note) ..... Nov 119
Gen set saves $1.1 million annually, secures backup system (field note) ..... Nov 120
Control system polls remote T-Gs, phones in reports (field note) ..... Nov 122
Two gas turbines shipped for Taiwan CC station (field note) ..... Dec 53

VALVES, PIPING, TUBES AND PUMPS

Ball valves solve turbine drain valve problem..... Jan 28
Nonintrusive method detects check valve wear without disassembly (field note) .....Apr 39
Manual remote control, flexible shafting solve space problem (field note) ..... Jun 54
Control valve retrofit saves 50% in maintenance time (field note)..... Aug 60
No-weld valves cut maintenance, replacement time (field note).... Oct 70

WATER, WASTE TREATMENT AND MANAGEMENT

Control retrofit optimizes water treatment operation ..... Jan 35
RO/DI system solves water problems for zero discharge plant (field note) .....Feb 60
Program determines sodium-to-phosphate ratio in boiler water .....May 44
Zimmer start-up hastened by mobile water treatment units (field note) ..... Jun 56
Wastewater management rises to top priority..... Oct 21
Power plants use a variety of methods to control zebra mussels ..... Dec 51

DEPARTMENTS

UTILITY GENERATION REPORT

Scrubbing to dominate acid rain compliance plans for 2000 .....Feb 10
Gas turbines reach 9 ppm nitrogen oxide emissions dry ..... Mar 10
New coal-fired plants may cost less than expected .....Apr 10
Utilities try demand-side bidding for new capacity ..... Jun 10
Externalities bias planning against fossil-fired generation .....Jul 11
EPA finally issues final WEPCO rule for modifications ..... Aug 11
First large, modern scrubber retrofit begins operation.. Oct 10
Trading allowance futures ..... Dec 10

NUCLEAR POWER ENGINEERING

Nuclear revival program moves to engineering stage.....Jan 8
EPRI launches nuclear heat rate improvement program .....May 10
An era of regulatory rapprochement? ..... Jun 18
O&M costs still troubling nuclear executives .....Jul 15
Yankee Rowe decommissioning estimate alarms industry ..... Aug 15
Nuclear Olympics ..... Sep 8
NRC regulating itself..... Oct 13
U.S./Russian uranium purchase deal beneficial to all ..... Nov 10
NRC seeks and gets NUMARC's advice ..... Dec 15

ENVIRONMENTALLY SPEAKING

CCT Round IV and microwaves..... Jan 11
Zebras, lime and PCBs .....Feb 14
The highs and lows of lime ..... Mar 16
Plaudits for coal reports, and a 'feisty' alert.....Apr 12
Why not recycle solid waste produced in CAA compliance .....May 12
Newfound communication/cooperation pay environmental dividends..... Jun 14
Trees protect us: lessons from the 1930s .....Jul 16
Power generation industry pro takes helm at A&WMA ..... Aug 16
Power generation industry shares data, helps EPA/DOE .....Sep 10
Coal wastes and dates and more on flyash.....Oct 15
Zinc waste's status under study; EPA drops RCRA revisions ..... Nov 14
An environmental commitment and cost effective waste disposal..... Dec 13

POWERING INDUSTRY

We've lost the battle, but not the war ..... Jan 12
The market for cogeneration will average $3.5 billion/year ..... Feb 9
Industrial power plants reduce operating costs with waste fuels..... Mar 18
Industrial power plants meeting stringent emission standards .....Apr 14
Cogen facilities will supply utility, industrial plant needs .....May 14
Non-utility power is coming of age in the Midwest.... Jun 12
Industrial use of cogeneration continues to grow..... Aug 18
Cogeneration promoted as demand-side management...Sep 13
Utilities pay 37% more for non-utility power..... Oct 16
ACA takes action ..... Nov 16

WASHINGTON ENERGY REPORT

Energy policy: much talk but no action..... Mar 15
Will a comprehensive energy bill be signed into law this year?.....Jul 18
At last—a comprehensive energy bill agreement ..... Dec 16

OPINION

Nuclear revival program needs more sense of urgency Jan 15
New base load power plant construction is coming ....Feb 17
Management commitment needed to reduce boiler tube failures ..... Mar 21
How about more interest in supply-side management?.Apr 17
Life extension faces new obstacles, but there's good news, too.....May 19
Regulators and efficiency..... Jun 21
Externalities go too far.....Jul 21
National Energy Bill: less than meets the eye ..... Aug 21
Efficient refrigerators? How about more efficient power plants .....Sep 15
NRC lightens the regulatory load..... Oct 19
Externalities revisited..... Nov 19
A new class of wholesale power generators is created Dec 19
